A divers dream becomes true!

With a rebreather you will experience a unique diving adventure!

Silent as a fish among fishes you will see the underwater world from it's most beautiful side.

With hardly any noise you will be able to observe the most timid sea creatures.

The important advantages of diving with a Rebreather:

- bubble free and noise reduced diving
- longer dive times – up to 3 hours +
- reduced cool out, your breathing gas has blood heat
- no dry run, your breathing gas is moistly

With us you can:

- trial dive with Dräger FGT5400 SCR
- Trial diving with FGT mCCR kiss style
- rebreather instruction and certification
- DIRrebreather philosophy and logistic
- guided dives with DRÄGER systems (SCR and mCCR)
- "Ladies version" rebreather configuration with ultra light carbon tanks
- Mixed gas for SCR rebreather
- Oxygen and diluent gas as nitrox, air or trimix for CCR rebreather
- Dive Sorb, Sofnolime
- Tank rental
- Rental of Tec gear like HALCYON and V4Tec
